

## Mission, Objectives, and Core Values of the Bachelor of Science in Biology Program

### Mission:

To deliver a distinguished biology program that prepares graduates with scientific and research competencies to contribute to environmental and societal advancement.

### Program Objectives:

1. To offer a high-quality academic program that fosters a stimulating environment for teaching and learning.
2. To actively contribute to scientific research and innovation in various fields of biological sciences.
3. To engage in community service and promote environmental sustainability through impactful research addressing current societal challenges.
4. To ensure the continuous development and improvement of the program and its curriculum.
5. To enhance the infrastructure and learning resources available to students and faculty.

### Core Values of the Bachelor of Science in Biology Program:

- **Citizenship and Loyalty:**  
Fostering a strong national identity, a sense of social responsibility, commitment, and initiative.
- **Excellence:**  
We aim to cultivate a research-oriented background for students, enabling them to contribute effectively to the job market in the fields of biotechnology and related institutions, as well as to pursue further academic research in life sciences.
- **Transparency:**  
We are committed to treating all individuals with dignity and fairness, while promoting mutual understanding and respect for diverse perspectives and traditions.
- **Social Responsibility:**  
We are dedicated to addressing the challenges facing our region and country by leveraging our intellectual and creative capacities to serve our communities and create a positive and sustainable impact on development, the environment, and society.

- **Capacity Building:**  
We aspire to foster a balanced development of students' knowledge and character, in recognition of the responsibility borne by educators and our duty as Muslims, with a focus on investing in human capital.
- **Integrity:**  
We uphold ethical standards in science and education.
- **Teamwork:**  
We are committed to promoting collaboration and a spirit of collective effort.
- **Lifelong Learning:**  
We believe that the pursuit of knowledge, understanding, and personal and professional development should continue throughout an individual's life.
